SUMIT SANJAY TIVADE

✉ tiwade328@gmail.com | 📞 9527240021 | 📍 Umalwad, Kolhapur

PROFESSIONAL SUMMARY:

Full-Stack Developer skilled in **HTML, CSS, JavaScript, and Java**, with experience in **VS Code, Eclipse, and MySQL Workbench**. Adept at building responsive web applications, managing databases. **Skilled in creating clear and interactive data visualizations using MS Excel**, including charts, pivot tables, and dashboards. Adept at transforming complex datasets into actionable insights through dynamic visuals, conditional formatting, and trend analysis to support informed decision-making.

TECHNICAL SKILLS:

Programming Language: HTML, CSS, JAVA SCRIPT, JAVA, My-SQL.

Devloper Tools: VS code, Eclips, My-SQL Work Bench.

Other Skills: Data Visualization & Making Data Story by using MS- Excel.

EDUCATION:

Jaysingpur College Jaysingpur *(Bachelor of Science in Statistics)*	2020-2025 *CGPA: 8.12*
Navjeevan High School and Junior College, Jaysingpur *(Maharashtra State Board of Secondary School & Higher Education, Pune)*	*Feb – 2020* *Percentage: 53.15*
Shri Danling Vidyalaya, Umalwad *((Maharashtra State Board of Secondary School & Higher Education, Pune)*	*March - 2018* *Percentage: 76.80*

Project:

***Spring Boot–Powered Hotel Booking Platform*:**

Developed a **web-based hotel booking application** using **HTML, CSS, JavaScript** for the front-end and **Java (Spring Boot)** with **MySQL database** for the back-end. The platform streamlines hotel operations by enabling staff to manage reservations, room availability, and customer details, while providing guests with a seamless booking experience.

to determine the perception of consumer about different four wheeler companies:

This project studies why people choose and trust different car brands, how they see mileage (especially Maruti Suzuki vs others), and how occupation affects these views. Data was collected through a simple questionnaire and analyzed in Excel using PivotTables, averages, and basic tests like t-tests and ANOVA. Bar and pie charts were used to show trusted brands, reasons for choice, and occupation groups. This easy approach helps clearly understand consumer preferences using Excel.

Certificates:

- **Java Full Stack at Qweez Technology, Kolhapur 2024**
